

## Government Onboarding Flow

## Applicant's Phone or PC

Type Phone  
& ID #

User Enters in a Unique ID # (Like Social Security #)

Name, ID# & FaceMap

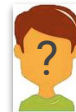

## Gov. FaceTec® Server SDK

Liveness Check

3D FaceMap

2D Photo on file  
(like a Driver License Pic)

Use the ID # to find the Applicant's Government Account and Digital Photo(s). Compare the 3D FaceMap to the 2D Photo(s).

## Applicant's Mobile Phone

Applicant clicks the link in the SMS, and then ZoOMS again. If the 3D FaceMaps and the on-file Government Digital Photo match highly, then use the FaceTec ID Scan UI to capture the Applicant's Photo ID Document.

(Optional)

Pics of ID Document

SMS Link to User's Phone #

## Gov. FaceTec® Server SDK

The Photos from the ID Document and the on-file Government Digital Photo from the DB are compared to the 3D FaceMap(s). The Applicant's identity is triangulated and the account can now be opened.

NO OCR Required.
